

Dr Fridman Specialties Certification

Internal Medicine

American Board of Internal Medicine (ABIM) certification in the specialty "Internal Medicine" assures that the Physician possesses the knowledge, skills, and experience requisite to the provision of high-quality patient care. To maintain board certification, the Physician participates in an extensive process that involves completing accredited education and specialty training and periodic oral and written exams to demonstrate competency in the field of Internal Medicine. An Internist is a personal physician who provides long-term, comprehensive care in the office and in the hospital, managing both common and complex illnesses of adolescents, adults and the elderly. Internists are trained in the diagnosis and treatment of cancer, infections and diseases affecting the heart, blood, kidneys, joints and the digestive, respiratory and vascular systems. They are also trained in the essentials of primary care internal medicine, which incorporates an understanding of disease prevention, wellness, substance abuse, mental health and effective treatment of common problems of the eyes, ears, skin, nervous system and reproductive organs.

Cardiovascular Disease

American Board of Internal Medicine (ABIM) certification in the subspecialty "Cardiovascular Disease" assures that the Physician possesses the knowledge, skills, and experience requisite to the provision of high-quality patient care. To maintain board certification, the Physician requires additional training and examination and must participate in an extensive process that involves completing accredited education and subspecialty training and periodic oral and written exams to demonstrate competency in the field of Cardiovascular Disease. A Cardiovascular disease specialist is an Internist who specializes in diseases of the heart and blood vessels and manages complex cardiac conditions such as heart attacks and life-threatening, abnormal heartbeat rhythms.
